The GameBreaker Under Shield is powered by an innovative smart molecule technology. D3O® materials flow freely when at rest, but on impact, lock tightly together to disperse and absorb the energy of the blow, before instantly returning to their soft, flexible state. This reaction is instantaneous and 100% passive. The greater the force of impact, the greater the protection. It offers maximum rib, spine, and shoulder protection for all athletes.

**PRODUCT FEATURES**
- POWERED BY D3O®
- BREATHABLE AIR MESH CONSTRUCTION
- ARTICULATED PADS FOR FULL RANGE OF MOTION
